

## CLINIC HIGHLIGHTS

### October 2022

October has been beautiful in many ways, the weather has been delightful and the patient volumes in the clinics have been strong.

- Delta Family is settled into 70 Stafford and they are loving the new space as are our patients. There are still a few finishing touches happening but overall the project is complete and now we can just focus on patient care. Dr. Jimenez is fitting in wonderfully with the DFM family and she is very happy to be here with us and we are happy to have her.
- We are excited for Dr. Ochoa to return to APC and for Kelsey Stark to also join us as an NP. Both will be great additions to that clinic and allow for increased access for our existing patients. Kelsey will provide acute care for our APC patients who need same day appointments.
- Dr. Frantz and Dr. Rose are wonderful and we are loving having them in the North Fork. They are kind and gentle souls who are doing a great job of connecting with the staff and other providers as well as patients. We're excited to see them get busier!
- Dr. Abuid and Birgitt are settling into their new routine and Birgitt is getting busier within the pulmonology clinic, both are enjoying the partnership.
- The Pain Center's remodel for the C-Arm is slated to be complete in Nov, the time line is determined by the Physicist as he has to test the room at various stages of work to ensure the radiation is not leaving the room. We are excited to have that complete and plan to do a grand opening/ribbon cutting once the room is done.
- The surgical office is running like a top and the transition of staff, providers and EHR are complete. Everyone seems to be settling in well.
- Pediatrics continue to increase patient volumes and Dr. Lovette is getting well known in the community, I hear her name often and patients/parents always have great stories to tell about their experiences with her.
- Flu shots are available in all the primary care offices if you need one stop by and our staff will take care of you!

Have a happy autumn season!
