

August 2023

As Summer winds down the clinics are not. We are seeing steady streams of patients and our walk in providers are busy all day every day.

We will be moving the Pain Management Clinic to provider based now that Alpine Women's has moved out, this will allow that clinic to benefit from 340b drug pricing and capture some overhead expenses on the cost report. The remaining clinic to move to provider based is Ortho and they are still sharing space with Cardiology so we cannot move them to provider based at this time.

All of the Delta Health clinics are working on quality measures and we are making good progress on that front with Jessica Zlomke leading the charge for quality. We have always done fine, but this year we want to do better than fine! We are hoping to be able to meet quality at a higher level and gain additional incentive payments.

We continue to focus on customer service so that our patients feel cared for at each step in their healthcare journey.
