

## CLINIC HIGHLIGHTS

### August 2022

As summer winds down we start to see subtle signs of the temperatures cooling off. With cooler weather come cold and flu season, well now I guess it is cold, flu, COVID and Monkey pox season...

The clinics are getting ready for the change of seasons, our flu shots will be available in Sept and we will continue to offer COVID vaccines and boosters, we will also be getting Monkey pox vaccine at Delta Family and West Elk Hotchkiss.

The DFM clinic opened in its new space on 8/15. We moved the clinic 8/11-8/13, thank you to all the staff and the plant operations department for the hard work of moving everything, it was teamwork at its best!

We are excited about the new providers joining us! Cathleen Moffitt, LCSW joined DFM in August and Stephanie Nickel moved to the Pain Center. Birgitt Schmalz, N.P. has moved to the Pulmonary clinic to assist Dr. Abuid. Dr. Ochoa and Kelsey Stark, FNP will join APC in November. Dr. Rose will join WEH in August, Dr. Jimenez will join DFM in September and Dr. Frantz will join WEH in October. We continue to grow and bring additional access to our clinics.

Happy end of summer to you all!

**Vickie Moore, M.Ed**

*Executive Director of Clinic Operations*
