

## CLINIC HIGHLIGHTS

April 2023

Welcome to April!

The Pulmonary Clinic, The Pain Center and the Surgery Clinic are all now provider based clinics which means we can place some non-reimbursed expenses on the cost report and those clinics can get most of their medications at 340B pricing.

Speaking of the cost report, due to our 3 RHC clinics, we will be getting money back from CMS to the tune of about \$1.4 million dollars and an unknown amount about back from the state. So not only are those clinics starting to break even or make money, they are also a benefit to the system as a whole. DZA said they would ask for the payments to be expedited, but they could not provide a time line.

There are no additional updates at this time. Happy Spring!
